This book contains in concise tabulated form a comparative view of *all the symbols of the great religions of the world*; the perfect attributions of the *Taro*, so long kept secret by the Rosicrucians, are now for the *first time published*. It forms, in short, a *key to all religions* and to all practical *occult working*.

For the first time *Western and Cabalistic symbols* have been harmonized with those of *Hinduism, Buddhism, Mohammedanism, Taoism*, etc. By a glance at the tables, anybody conversant with any *one system* can understand perfectly *all others*.
